

TEA is good tea

Always Pure and Clean and Kept Good in the Sealed Package

The Miracle Of Spring

Spring has come again with all that it implies of hope, rebirth, optimism, growth, youth and happiness. Spring, the ever recurring miracle of the age! It is only necessary to open one's eyes to realize the wonders of Spring! It comes, brooks and rivers, joyfully break their icy fetters and go leaping, tripping on their way, trees throw out their tiny leaves, seedlings and dried grasses awaken overnight on a lustre of green; birds appear infrequently and fill the air with song. In a word, all nature awakes from its long sleep and thrills with life and the joy of living.

And what Spring means and brings to nature it should mean and bring to all mankind. Just as the earth awakes to the benign influence of the spring warmth of the sun, so each one of us should wake to the life which has held it in frozen grip, as should man respond and throw off the lethargy and pessimism of winter and renew his youth and vigor with Spring.

Of course, men do with the coming of Spring and the renewed activity of nature, undertake those duties of the farm which the season brings, while in the cities artisans are again employed in structural work. But Spring should mean to all men and women a deeper, more significant message than merely a call to seasonal work.

Spring is the season of hope and promise. It is the time of year when all may turn their backs and their minds on the past and look forward with confidence to the future.

The winter of 1921-1922 was a hard and discouraging one for many people. To some it was a time of hopelessness and even acute suffering. It caused a lowering of our morale, a weakening of our courage, discouragement, and a feeling of pessimism about the future. Nature seemed dead, and the efforts of man to withstand its vagaries and onslaughts appeared weak and futile.

But with Spring came a new mood, a new spirit, a new hope. It offered encouragement. One's first effort, therefore, should be to respond to this uplifting mood, and to shake off the pessimistic feelings of the past, to turn from the dark foreboding of winter, to forget past disappointments, and to face the future with confidence and a brave countenance.

Recommencing the fact that environment has a great deal to do with one's state of mind, it is the part of wisdom to influence that environment in every way possible. A man cannot make a success of things if all around him are evidences of failure, poverty and inefficiency are not born in surroundings limited by sloth and carelessness. Winter always is characterized by accumulations of material and waste material, and the melting of the snow reveals much uncleanliness which is most depressing.

A general cleanup "clean up" should, therefore, be the first thing to do. Clean up the house, clean up the car, remove and destroy the refuse of the past, repair that broken fence, patiently empty a little sink. Remove all those little things which give a random, slothful, unprogressive unwelcome appearance to your place. A little time will do it, and the effort on present and your mind will be amazing. And don't forget to clean up your own thoughts and ideas. Carry out of sight your old forebodings and gloomy predictions. When watching your house windows don't neglect to clean the windows of your mind and soul.

Demolishing outward conditions have a depressing effect on the inner man, but it is from within that must come the will to improve those outward conditions. To allow the surroundings of the winter to continue, not only, but death. Just as nature throws off the sloughs of winter and renews the aspect of Spring, so must each and every individual refrain from further dwelling upon the disappointments and losses of the past and throw them away wholeheartedly into the past, with their feet on the new year, and their energies applied to good by an indefatigable addition to success—employed in constructive work.

A spring cleanup is a good business from the purely practical standpoint. The removal of waste is always wise. It is a matter of economy. It is a safeguard of health. But it also has a beneficial effect on oneself. It is a tonic to the individual and it is a material clean-up is accompanied by a reorganization and betterment of one's outlook on life and its problems, a long step forward has been taken.

Japanese Demand. For B.C. Lumber Will be in Market for Many Years to Come

The unprecedented demand for Japanese lumber for British Columbia last year was not merely a temporary development, but an indication that Japan will be in the market for many years to come. The Japanese forest products, in large volume for many years to come, according to Y. S. Lo of Tokyo, for the first time at Victoria with a party of Japanese lumber and pulpwood buyers, said to represent \$25,000,000.

Pave Street With India Rubber. A street in the suburbs of Copenhagen, which is said to last for fifty years. The offer has just been made to the municipal authorities of Copenhagen by a rubber company of that city. The sample rubber street would be 720 yards long. The company states that the proposed road would be far superior to ordinary ones.

Probably the queerest news item in the world are those reported in the Sudan. They are not really about the Sudan, but about the Sudanese.

U.S. Reduces Navy

Estimate Has \$121,000,000 Decrease Under That of Last Year

The 1922 U.S. naval bill, carrying out the five-year plan, was reported to the House recently.

It carries a total of \$221,221,000, \$151,000,000 less than appropriated for the United States navy last year. There remains to be appropriated in a separate measure later, however, about thirty million dollars, estimated by the navy department as the cost of construction of aircraft carriers, not completed and ordered separately.

Briefly, this is what the bill does: Cuts the entire personnel from \$5,000 to \$4,000, plus 2,000 appointments.

Leaves officer total substantially intact, except for the dropping of 230 reserve officers on active duty.

Authorizes commissions for only 200 of the first-class gunners at Annapolis to be graduated in 1922.

Lays up 254 vessels of "nonessential" character, including all but the fleet's fleet.

Eighteen battleships are allotted to the United States under the new act.

WORLD HAPPENINGS BRIEFLY TOLD

Unemployment in Berlin has decreased to the lowest figure since the armistice. During the last three months only 14 workers out of every 1,000 were unemployed.

Notice has been served on the Royal Academy in Dublin that all pictures by the Impressionist school, persons in the northern area must be removed.

More than twenty French soldiers were killed and a dozen wounded while searching for hidden arms in Polesia.

A spade struck the retreating mechanism of a hidden mine. The explosion occurred in a cemetery between Gilestis and Rosetta.

Customs duty collected on agricultural implements during 1921 amounted to \$1,517,570, out of a total duty collection of \$1,747,667,582. During the same period, duty collected on agricultural implements amounted to \$2,522,495.

A fellowship of the value of \$200 per annum has been donated for a limited term by the University of Ontario, which will open to graduates of universities in Western Canada who wish to pursue post-graduate work at the University of Toronto.

Hon. John Hart, minister of finance, was sworn in by Lieutenant Governor as minister of industries for the British Columbia. He will retain the office of minister of finance. Premier Oliver, who has been minister of industries, resigned just before Hart was sworn in. The Premier will retain the office of minister of railways.

ROYAL YEAST CAKES

As a health builder, Royal Yeast is gaining popularity every day. It is a food, not a medicine. It supplies the vitamins which the diet may lack. Royal Yeast is highly beneficial in cases where the system seems "run down." Royal Yeast is the richest known source of vitamins, and when taken into the system acts as a corrective agent. Royal Yeast Cakes are recommended for their purity and wholesomeness. It is the purest, the most convenient and economical yeast on the market.

Two to four Royal Yeast Cakes a day will work wonders. A full day's supply can easily be prepared at one time by using one glass lukewarm water and teaspoonful of each yeast cake. Allow to stand overnight in moderately warm room. In the morning stir well and pour off liquid. Place in refrigerator or other cool place and drink at intervals as desired throughout the day.

Send name and address for free booklet "Royal Yeast Cakes for Better Health."

Gifts That Last

Easter, festival of spring is everywhere a time of adornment. Nature provides new dress for every growing thing; the sky is more brightly blue, the birds are gayly feathered.

Personal adornment at Easter is natural and in harmonious keeping with this season of gladness, and the bit of jewelry or some little accessory of dress becomes a part of the Easter costume. The setting of the Easter table also suggests lustrous silver and glass to fittingly accompany the joyous hues of springtime flowers.

OTTINGS
OF
LOWN AND
1111107

Local News.

Mrs. LaFrance spent the week end with her parents in Red Deer.

Mrs. (Dr.) Graham has been spending a few days in Edmonton.

Several of our local teachers are attending the convention in Calgary this week.

The dances, given by the Hospital Social Club in the Empress Theatre Friday evening, was a good success, and the promoters are to be congratulated.

Herb. Stretch had a couple of Percheron fillies at the recent Edmonton Horse Show, and won first and second tickets. The animals are very fine, and won considerable commendation.

A. J. Smith returned from Wyoming last week, and is again making his home with his daughter, Mrs. (Dr.) Budd.

Wheat prices are climbing considerably, and the fortunate parties who have wheat to sell will reap a handsome profit.

The attorney general is taking steps to have the slot machines put out of business in the province. If the supreme court of Alberta holds him, he intends carrying it to the supreme court of the Dominion.

W. J. Hase shipped ten fat two-year-old steers on Monday. They averaged an average of \$90 per head. They were fine animals, and the prices are considered very satisfactory.

Lacombe has organized a baseball club, and are looking forward to having a first-class amateur ball team. Several representative citizens are behind the project, and no doubt our southern neighbors will be heard from. Where does Ponoka stand?

Mr. and Mrs. L. J. Nelson returned from the coast on Friday. They have been spending the winter among the wealth and beauty of Victoria, and of course enjoyed themselves immensely. Now they are back on the farm for the summer, and surely, after the long rest ought to be able for a full day's work.

A little thought should be given to the appeal for the Rest Room, under the heading "Let Us Forget." It is to be hoped that as assistance will be forthcoming, and that the good work will continue. The rooms are more popular than ever, and their upkeep should be easy, judging by the number of patrons.

Due to a change in the weather seeding operations have been held up somewhat. A heavy fall of snow took place Tuesday night and Wednesday, with slight flurries off and on since. Of course there is plenty of time for operations in the fields, and the moisture is more than welcome, the soil being very dry. The snow has changed this, and with favourable weather conditions seeding operations will go ahead. Already there is a fair average sown, one farmer close to town having about sixty acres under crop.

Excavation work is under way for a residence for Dr. Graham on Donnell Avenue.

SPELLMAN—On Friday, April 14, to Mr. and Mrs. Ole Spellman, a son. Ever was fittingly observed in town. Good Friday was a public holiday, while the banks and schools were closed on Monday. The services in the churches on Sunday were appropriate to the occasion.

The last lecture on Boy Scout and Wolf Cub work will be given by Scoutmaster James in the town hall tonight (Thursday), at 8 p.m. Should the hall be unavailable the lecture will be given in the Baptist Church.

Geo. E. Clarke, local manager, Canadian Bank of Commerce, has been moved to the Stony Plain branch, and expects to leave this week. His successor here is to be R. C. Ames, manager at Delia. Mr. Ames was accountant here some twelve years ago, and has many friends in town and district.

Organization is now practically completed by the Agricultural Department for the most aggressive war ever carried on against the grasshopper pest. Z. McIlmoyle, assistant deputy minister, will be in charge of the organization. Thirty districts have been organized, covering the province all the way north as far as Camrose.

Jas. Harris, farm superintendent at the hospital, is leaving that institution on an early date, and expects to move to his farm, near Edmonton. Mr. Harris has been in charge of the hospital farm for the past nine years, and has seen the farm grow from a small beginning to one of the most important in the province. He has many friends not only amongst the local farmers, but also in town, and his departure will be regretted.

The Women's Council are offering prizes for the best kept flower gardens in town. This is a very commendable move, and should be an incentive to citizens to look after their gardens during the summer. Such moves as this and Ponoka will commence to look like other towns. Tree planting taken up by the individual citizens, and for the love of Mike! let us have the ground in front of the depot attended to. Just think how neat Waskia, Leduc, Innisfail, etc., look in comparison to our own town. A little enterprise by council and citizens and much of this can be overcome.

Auctioneer Morrow will hold a sale of furniture on Saturday, April 20, at 2 p.m., near town hall. **HIGH MARK FOR WHEAT**

Minneapolis, April 17.—May wheat reached a new high mark for the year of \$1.52 1/2 a bushel at the Minneapolis chamber of commerce today. The price at the close eased off to \$1.52. The market followed the trend of trading on the Chicago board of trade.

Entirely New Treatment For Bronchitis, Catarrh.

No Internal Medicine to Take

Years ago the profession sought Catarrh by external dosing. The use of the stomach and did not remove the trouble. The modern treatment consists of breathing the healing, soothing essence of Catarrhine, which goes instantly to the source and the trouble can be cured. Catarrhine is successful because it penetrates where the medicines can't go. The balsamic vapor of Catarrhine drives out the germ, soothes the irritation, relieves the cough, makes Catarrhal troubles disappear quickly. For bad chronic coughs, bronchitis, Catarrhine is a wonder. Two months treatment costs \$1.00. Small size 50c. Sold everywhere or The Catarrhine Co., Montreal.

Vertical Flight Problem Solved

Test of Handley-Page Slot Wing Proves Successful

The latest tests with the new Handley-Page slot wing show that the future of vertical and horizontal flights is solved by aircraft fitted with such light wings rather than by the helicopter system.

The new Handley-Page torpedocarrying aeroplane, the first machine fully equipped with the variable slot type of wing, has undergone further test flights.

As soon as the engine was "up" the airplane plunged straight into the air with practically no preliminary run.

When the slots were closed it showed a very high speed; when they were opened again the machine slowed down practically all and descended vertically on an even keel for more than a thousand feet, in a space about as big as a tennis court.

What is more important still, it could have flown away again from the same restricted space.

The action of the opening and closing wing is similar to the action of a bird's wing when it opens and closes the main feathers for slow landing on a telegraph wire and when flying from a confined space.

It was invented by Handley-Page in March, 1920, since which time Handley-Page has been carrying out exhaustive tests.

The latest machine is nicknamed "The Heintz," owing to its being said to have 57 different varieties of control.

The machine proves that lifting is a definite revolution that is going to make aviation a wonderful commercial proposition.

Removing Dirt From Wheat
Machine Will Clean Wheat at Time of Threshing

One source of economic waste has been the contamination of wheat by dirt and the seeds of various weeds and foreign grain, such as wild oats, buckwheat and many others. Lately a machine, which has been described in The World's Popular Mechanics Magazine, has been designed and tested which seems to point to the solution of the problem of cleaning wheat at the time of threshing. It is of simple construction and can be placed on the top of the threshing machine, reaping its power from that source.

Stand-Pat
Every day who never were prohibitionists break into print to form the world that they might be there in prohibition. Well, they are not expected to.—Edmonton Bulletin.

Could Not Eat
Constipation is caused by a torpid condition of the liver. Dealing with salts, castor oil, to move the bowels, cannot afford more than temporary relief.

If you are to rid yourself of all ailments and the scores of annoying symptoms and diseases which come in its wake, it is necessary to get the liver right by such treatment as is suggested in this letter.

Mrs. Alvin Richards, R. R. No. 1, Selkirk, Man., writes: "For two years I was afflicted with indigestion, and in the morning when I got up my head was so heavy and my poor appetite, and just felt like eating certain foods, and I used many different medicines as a last resort, but the doctor's medicine did not help me at all. Finally I tried Dr. Cass's Kidney-Liver Pills, and found them better than anything I had ever tried. I am highly recommended here to anyone troubled with constipation or kidney troubles."

Dr. Cass's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

Movement Towards Canada

Nebraska Farmers Interested in Farm Land in Canadian West

(Special Correspondence by G. C. Porter, of Winnipeg)

Omaha.—During the past twenty years this section has been a most prolific recruiting ground for emigrants from the rural districts, who drifted to move into the Canadian Northwest. More purchasers of land than homesteaders have been coming by Nebraska to the Canadian prairies, but many homesteaders also have come from here.

W. V. Bennett, Dominion Immigration Agent at this point, is daily in receipt of personal calls and letters of enquiries from all over the State from those who are going or contemplating going to the Canadian Northwest.

Homesteading is not very popular with Nebraska emigrants except with the younger sons of the farmers who were themselves homesteaders in Western Nebraska. The agents supply these people with railroad maps and valuable advertising matter prepared by the Government.

Many Canadian and American railroads who served overseas are anxious to obtain land in the Prairie Provinces. Many of these boys are bachelors and want homesteads. They have some money and a few of them want to buy land. In cases where they have had experience as farmers they are promptly taken in hand and given every encouragement. If they are mechanics and want to go to the different cities they are acquainted at with the conditions prevailing in their particular trades.

Dr. A. H. Hipple is chairman of the citizens committee which is arranging to have J. Ross Walker, secretary of Dominion Publicity, deliver lectures here before the Chamber of Commerce, the Kiwanis and Rotary Clubs.

Enthusiastically of the movement to wards the Canadian Northwest. From their knowledge of the conditions existing here they say they expect to see toward Canada and the Central States this spring.

Peace Depends on Working Together

Everyone Has Individual Responsibility Says Sir Auckland Geddes

Sir Auckland Geddes, British ambassador to the United States, recently addressed a group of young men and women representing both Canadian clubs at the Royal Alexandra Hotel, Winnipeg.

"Canada and the United States have never before been on such good terms as they are today," he said, "and now every thinking man and woman sees such a demonstration of that determination to work together for the good of the world as will impress all people everywhere."

Peace was a mental state, Sir Auckland said, and was often confused with war and peace. War was a physical state, and peace was something positive. Peace was a joyful acceptance of the right of law and justice between nations. What the world was suffering from at the present time was a mental condition. Men's minds were not yet ready to accept the right of law, and peace was something positive.

"Now, you men and women are just as capable as anyone else to help produce that state that mental state called peace. In an amazing manner, as you can reach," Sir Auckland said.

"We have all got to work and will for that state of mind. Each of you has today an individual responsibility, and I feel in kind that which I feel rest upon you in 1914."

Officials in Germany

State Has Over Half Million Men Enlisted

Remarkable figures disclosing the enormous proportions to which official Germany has grown since the war, and the staggering debt, thus added to the treasury debt, are published by the minister of finance.

The state itself, exclusive of the army officials employed in the various states and municipalities, has on its payroll more than half a million men, cost Germany nearly 14,000,000 paper marks (about \$20,000,000) and a proposed increase of wages will bring the total to at least 1,500,000.

The German economy has been blunted, and new legislation is being proposed for the purpose of providing employment for the unemployed. About one German adult every three draws Government pay.

Good Industry Increasing

The annual value of goods produced in British Columbia exceeds that of sheep and goat raising in New York recently to read American.

"I propose to make a raid on America," he said, in explaining the purpose of his proposed lecture tour. "I propose to read the Canadian and British press."

Canard Doyl Will Read "Scepticism" Sir Arthur Conan Doyle, creator of Sherlock Holmes, but now a sincere believer in things spiritual, arrived in New York recently to read American.

"I propose to make a raid on America," he said, in explaining the purpose of his proposed lecture tour. "I propose to read the Canadian and British press."

Ship With Wings Destroyers with wings are being made by a British firm under direction of the air ministry. The winged ships are made for sailing on the sea as well as through the air.

Tokio's Railway Problem

Carry Million Passengers Daily on 181 Miles of Line

While the Japanese Government Railways carry 1,200,000 passengers daily on their system which comprises 6,000 miles of railroads, the Tokyo street cars carry the same number of persons per day on only 181 miles of line.

To do this 1,200 cars are in continual use, and it is estimated that 16,000 miles are traversed by them every day—a distance of more than six times round the world. It was readily understood that the overcrowding in cars is a serious matter, and improvements are continually being adopted, the construction of underground railways being now under consideration.

ACHES AND PAINS—SLOAN'S GETS 'EM!

Avoid the misery of aching pain. Have a bottle of Sloan's Liniment handy and apply when you feel the least ache or pain. It quickly cures the pain and sends it back to the source. It is a liniment, not a salve, and it is not greasy. It is a liniment, not a salve, and it is not greasy. It is a liniment, not a salve, and it is not greasy.

For four years Sloan's Liniment has been a household name. It is a liniment, not a salve, and it is not greasy. It is a liniment, not a salve, and it is not greasy. It is a liniment, not a salve, and it is not greasy.

At all druggists—50c, 70c, \$1.40.

Sloan's Liniment (Fruit)

Every Fourth Man Has War Claim

Over 21,000 Claims Submitted to the Dominion G.W.V.A.

The flood of claims for adjustment of matters arising from war service which continues to pour into the headquarters of the Dominion G.W.V.A., at Ottawa, has brought to light the remarkable fact that every fourth man enlisted for overseas service during the Great War considered that his balance with one branch of the service or the other had not been properly squared when he was demobilized. Since the formation of the G.W.V.A. more than 125,000 claims have been submitted through its adjustment services. An average of 35 per cent. of these have been satisfactorily settled. The "Clean Sweep" Campaign undertaken by the association last fall, and which still continues with undiminished energy, has thus far been responsible for the submission of over 21,000 claims, of which an average of 35 per cent. have been settled to the satisfaction of the claimant. An officer who surveyed the work passing through the Dominion Command Office, recently stated that the staff was less than half that which would

Reported That Russia Is Now Willing To Acknowledge War Debts

Genoa.—The Bolshevik delegates and the representatives of France to the economic conference took bread together at the residence of Premier Lloyd George and there has been an appreciable rise as a consequence in the expectations that the conference may have good results, even in the personal quarters here.

The meeting was called by Mr. Lloyd George for a discussion of the Russian programme, with the purpose of clearing up certain points in the London experts' report before the Russians present their final reply to it.

This carrying of the most vital part of the business of the conference into such an informal gathering, where personal contact may possibly remove much of the animosity which has been displayed in the public sessions, has created a general feeling in conference circles that a compromise may be arranged on the Russian problem which will afford a satisfactory working basis for the reconstruction of Russia.

PECULIAR ASSOCIATIONS IN GENOA RESULT OF ECONOMIC CONFERENCE

Genoa.—Politics is making strange associations in Genoa—or, rather, economics is doing so. The Bolsheviks accept the statement, reiterated 50 times daily by its framers, that the Genoa conference is not political. It is certainly unusual to find the Soviet chief, Tchicherine, sitting vis a vis with Constantin Blumensky. Four years ago the Bolsheviks were in the money in jail at Petrograd. At that time he was the Rumanian minister, accredited to the Kerevsky Government, and the diplomat of the whole world were storming against Soviet violation of his diplomatic immunity. The sight of Adolph Joffe and the German chancellor, Dr. Wirth, in conversation, recalls Joffe's very sudden expulsion from Berlin, according to the terms of the Brest-Litovsk treaty, but the German Government, monomaniacally loaded him and his entire staff on a special train and drove them back to Russia, alleging they

The keynote of the Allied position at the conference today was that Russia first must satisfy past pledges before it can be asked to make concessions for the future. In other words, Russia must recognize the debts of the Czarist Government before Soviet claims against the Allies can be entertained.

The Russians have caused a state of confusion by the confusion of the Rakovsky, the Ukrainian premier, and other delegates to the effect that Russia has already entered laws and made court reforms and regulations affecting foreigners residing in Russia which meet many of the criticisms of the London experts. But they also expressed a willingness to acknowledge pre-war debts and signed their purpose to erase their claims against the Allies arising from the operations of the Wrangel, Denikin and Yudenich armies against the Soviet regime if the Allied war claims against Russia are wiped out.

propagandists and not diplomats. It also seems odd for Dr. Blumensky, who is a Jew, to be sitting together at a conference called in the interests of peace. Rakovsky was an active Rumanian Sovietist at the beginning of the war, and the Dachaev Government interned him. Now he is president of the Ukrainian republic, federated with the Ukrainian people.

Then there is the cordiality with which the British Premier greets Maxim Litvinov, whose attitude here does not in the least suggest the stormy time Litvinov had in England before he became Tchicherine's chief assistant in Moscow.

But in four years the Bolsheviks have made more treaties than the other European states have completed in the past century, so the professional diplomats have to admit the Russians are no novice when it must be dealt with accordingly here.

Establishes Claim to Pension
London, N.Y.—Mrs. Rachel McQuinn, of this city, has recently come into possession of a windfall from the United States Government. A pension to which she was entitled in consequence of her husband having been in the American Civil War, has been acknowledged for three years, and she succeeded in establishing her claim to it.

Low Degree for Gen. Pershing
Montreal.—General John Pershing, chief of staff of the United States army, will receive the honorary degree of doctor of laws at McGill University on May 12, it was announced here by General Sir Arthur Currie, vice-chancellor and principal of the university.

More Deaths Predicted
Genoa.—From 6,000,000 to 7,000,000 Russians will have died of famine before the next crops are harvested according to a report received from Capt. Quilting representing the international relief organization.

The meeting of the commission on Russia has been postponed until tomorrow, M. Tchicherine awaiting instructions from M. Lénine, at Moscow, with whom he is in direct communication.

London.—The reported intention of David Lloyd George, the British premier, to propose at Genoa a pact of understanding that no nation shall attack another is featured in two or three of the London newspapers. "However plausibly the plan may be framed," says the Daily News, "it sounds to be more spectacular than real."

"Mr. Lloyd George has declared that the conference, before it can be a success, must be a discussion of the economic conference, must create a peaceful atmosphere by settling the causes of disagreements. The new which lead to the war, he added that an efficient instrument already was available both to remove disagreements and to organize disarmament."

Objection to Wheat Board

Montreal.—The establishment of a Government Wheat Board will kill the four milling industry in Canada, declared General A. E. Labelle, president of the Canadian Flour Milling Company, Limited, addressing the Chamber of Commerce here. He asked the chamber to adopt a resolution protesting against the Government meddling with wheat prices. The chamber approved of the resolution in principle and the secretary was directed to frame the official resolution which will be forwarded to the Government.

Russians Returning To Native Country

Contingent from Canada and U.S. has Reached Moscow

Selkirk.—One hundred and forty-nine Russians from America, 45 of whom are accompanied by their wives and children, comprising the first contingent of more than 2,000 from Canada and the United States, have returned to their native country, have purchased their first view of their promised land under Sovietism, which they left under Czarism. They are awaiting instructions from Moscow as to where they may settle.

They brought 400 tons of agricultural equipment, which will be used in teaching peasants modern soil cultivation. The unit will land in hand which will be virtually theirs, and it is expected they will organize a Soviet wherever Moscow officials decide to send them, which will be in some section where land is plentiful. The unit landed at Leningrad and passed through Latvia, several Soviet officials accompanying the travellers to their destination. There were several hours delay at the frontier after which the newcomers passed the border where they were most cordially greeted by officials from Moscow. Then they started on their journey full of anticipation for their hopes for the Utopia.

Balfour Accepts Title

Yields to Long Standing Aversion in Accepting Earldom

London.—A formal announcement was made that an earldom had been conferred on Sir Arthur Balfour, former premier and at present lord president of the council. The announcement confirmed what had been unofficially known some time. Throughout his political career he had steadily set his face against the acceptance of any title, even, according to gossip, having declined one when offered him on his return from the Washington conference. Then he accepted the Order of the Garter with out realising, it is said, that it carried nobility, and the title "Sir."

Mr. Balfour at last relented, however, and now goes to the more dignified ceremony of the House of Lords with the title of Earl Balfour of Whittingham. In the upper chamber the Conservative leader will not lose his identity under an entirely new name, as he did, for instance, the first time, when he became Lord Beaconsfield, but will retain his old name as did John Morley on becoming Earl Morley.

Crucifixion on Cart Wheel
London.—An amendment to the army bill, abolishing "crucifixion" in the army, was defeated in the House of Commons. Earl Hild and Sir William Robertson, former chief of staff, favored the retention of the "crucifixion," which consists of tying the offender to a cart wheel by his legs and arms.

Old Age Pension Plan
Ottawa.—The advisability of the Canadian Government instituting a system of old age pensions will be debated in the House of Commons, Dr. J. E. Lafontaine (Liberal, Ill.), has tabled a resolution on the order paper.

Orders in Hand Total Over Two Million Tons

New York.—With world shipbuilding rapidly reverting to the pre-war scale, Great Britain has resumed her great lead over the other countries of the world in the construction of ships of all classes. At the same time the United States, despite the great agitation for increasing maritime power, has fallen behind.

This is disclosed by a statement issued here by Lloyds. It shows that the shipyards of the United Kingdom have orders in hand totalling over 500,000 gross tons more than before the war. The United States yards have orders in hand for only 136,000 tons, a decrease of about 10 per cent. from the figures for July, 1914. All other countries trail the United States and Great Britain with the exception of Germany, for which no authentic figures are available, now have under order more than double the pre-war construction aggregate for these nations. The figures showing the amount of shipbuilding order in hand give a clear indication of the lead held by Britain. They are: United States, 136,000 tons; United Kingdom, 2,267,500 tons; all other countries, 1,267,500 tons.

The British Dominion, according to Lloyds' figures now have 62,650 tons under construction, against 64,649 tons on January 1, 1922.

Hawaii Hears Music from Alberta

Calgary.—A concert programme of music played on a phonograph at the Canadian government wireless station at High River on March 21 last, was heard for half an hour at the town of Wabasca on Mars Island, 100 miles from Honolulu, or just about 2,800 miles from High River, Alberta. Word to this effect was received by W. W. Grant, wireless chief of the Canadian Government station at High River.

To Obtain Tidal Data
Ottawa.—A number of Canadian representatives will attend the international conference on tidal data at Rome next month, where a special effort will be made to establish a uniform system of arriving at tidal data throughout the world. Dr. W. H. Dawson, of the tidal and current survey branch, Naval Department, one of the Canadian representatives will leave Ottawa for Rome at once.

U.S. Settlers for Peace River
Edmonton.—It is to be a large number of Americans to the Peace River country this month, over a twenty-five families leaving Sunday, April 15, for Edmonton. Francis W. James, a prominent rancher, states that big tracts of land will be taken up for ranching purposes.

Lord Curzon's Note Pleases United States

Washington.—Secretary Hughes received from Ambassador Hurley in London, a note from Lord Curzon, Foreign Secretary, which stated that the Government of Great Britain would not in any circumstances desire to question the rights of the United States in its claims for payment of costs of the American army of occupation in Germany. Secretary Hughes later transmitted a note to Ambassador Hurley for delivery to the British Foreign Office, expressing his gratification over Lord Curzon's letter and expressing hope that the reimbursement for costs of the United States army in the Rhineland would soon be made.

Robbers Secured Head
Vancouver.—After checking up on the victims of the recent robbery of a safety deposit boxes in the Royal Bank of Canada branch at Vancouver on March 23, the total value of the property lost and the securities taken has been estimated at \$122,456, according to a statement made by C. W. Frasse, supervisor of branches here. Of this amount only \$22,000 were losses, the balance being registered.

Honored by the Pope
Quebec.—The announcement was made here officially that three prominent Quebec business men had been honored by Pope Pius XI. Mr. Joseph Poirer and Osmund Poirer had been made commanders of St. Gregory the Great.

Wireless Service Opened
Genoa.—Wireless service between Switzerland and England was inaugurated with a message from the president of the Swiss Confederation to the King George. One hundred words per minute were transmitted.

Winners of Prize
Montreal.—A. Y. Jackson, R.C.A. of Montreal, was awarded the Jerome Bow prize for the best oil painting on view at the spring exhibition of the art institute at Montreal. The picture is entitled "Morning After Frost."

Truce Is Declared Between Factions Along The Fermanagh Border

Belfast.—A truce was declared between the Ulster special constables and the Free State troops which have been menacing peacefully along the Fermanagh border between Ulster and South Ireland, it is announced here.

Sir Paul Brooke, commanding the Fermanagh constables, crossed into Free State territory at Blacklion near Delco, and conferred with the rival leader of the Irish Confederation, the King George. One hundred words per minute were transmitted.

Truce Is Declared Between Factions Along The Fermanagh Border

Famous Aviator Killed

London.—Sir Ross Smith, the Australian aviator, who with his brother, Sir Keith, had planned to start from Croydon on April 23 for an attempt on the eight day round world, was killed when his plane crashed in a practice flight at Brooklands. Lieut. Bennett, an engineer, who was planning to accompany Sir Ross and his brother on their around the world flight, also was killed. The machine which crashed was the one the Smiths intended to use in their flight. Capt. Kennell of the Victoria Company, had previously flown it for a half hour, then handed it over to Captain Smith. As the machine was approaching the airfield to land, it got into a spin and the fatal crash followed.

Large Acreage in Manitoba

Plenty of Moisture and Bumper Crop Yield Anticipated

Winnipeg.—With an early spring well on the way and plenty of moisture guaranteed for early sowing, a bumper crop was predicted for Manitoba in 1922 by H. G. Malcolm, manager of agricultural insurance, discussing the general situation.

"There has never been as much land plowed and ready for seed as this year," Mr. Malcolm said. The acreage in grain for immediate use is placed at 1,962,650 acres, as compared with 1,825,200 in 1921. These figures do not include the spring plowing, which will be under way within the next fortnight. The total acreage sown to crop last year was 7,415,637.

The districts which have been infested with grasshoppers during the past three years are free of the pest this year as nearly as can be judged at this time, and Mr. Malcolm declared that he did not believe these pests would be a menace this year.

Japan Welcomes Prince

Royal Visitor Heartily Greeted by Thousands in Yokohama

Yokohama.—The Prince of Wales has arrived for his official visit to Japan. Thousands greeted him as he landed from the British battle cruiser Heneva which brought him from India. His reception was carried out according to the programme to the minutest detail, as is the Japanese custom. Yokohama's three thousand people would be a menace this year.

Lord Curzon's Note Pleases United States

Washington.—Secretary Hughes received from Ambassador Hurley in London, a note from Lord Curzon, Foreign Secretary, which stated that the Government of Great Britain would not in any circumstances desire to question the rights of the United States in its claims for payment of costs of the American army of occupation in Germany. Secretary Hughes later transmitted a note to Ambassador Hurley for delivery to the British Foreign Office, expressing his gratification over Lord Curzon's letter and expressing hope that the reimbursement for costs of the United States army in the Rhineland would soon be made.

Anthracite Producers Believe That Miners May Modify Demands

Company Issues

Is Considered a Great Advance in

Nelson, B.C.—A zinc schedule, the first in the history of Canadian mining, has been issued by the Canadian Mining and Smelting Company of Canada in connection with its smelter at Trail, and particularly in connection with a general plan now being built by the corporation to treat the custom zinc ores of the Shoran and other silver-lead zinc sections on similar lines to treatment of its own enormous tonnage from the Sullivan mine. The plan will be ready some time in June. It is expected that this new departure will lead to the opening of many properties that otherwise would not have an incentive to open, besides assisting many other operations.

The smelter will pay from 60 to 85 per cent of the zinc, for 80 per cent of the gold and the silver in sold zinc ore, and for 80 per cent of the lead, lead zinc ore, and silver and lead recoveries will be in the smelting of the residues after the leaching out of the zinc, and the zinc charge will be less as the zinc tenor increases. This is the greatest advance in Kootenay mining that has been made in the Sullivan area by the Consolidated as a result of \$2,000,000.

War on Border Smugglers

U.S. Will Fight Border Runners at Canadian Border With Machine Guns

Chicago, N.Y.—Adjutant-General Kinnaird has made public a telegram from Roy A. Hazen, Federal Prohibition Commissioner, in which Mr. Hazen was quoted as endorsing the Adjutant-General's plan to cooperate with Ralph A. Joffe, Federal Prohibition Director for the State, in an intensive campaign against rum runners along the Canadian border. Employment of machine guns and armor-plated motor cars to be furnished to the Adjutant-General, was contemplated in the campaign to stop the illicit traffic in liquor, which is the most important of the plan in New York.

Farmers Will Contest Seats

Decide to Place Candidates in Three Manitoba Constituencies

Brandon, Man.—At meetings of representatives of the various farm organizations in the province, it was decided to place candidates to represent the farmers in these constituencies in the coming provincial elections. A committee was appointed to represent the farmers in the constituencies of Brandon, Glenora and Virden held by Alexander, Smith and Virden, respectively. It was decided to have a candidate to represent the farmers in these constituencies in the coming provincial elections. A committee was appointed to represent the farmers in the constituencies of Brandon, Glenora and Virden held by Alexander, Smith and Virden, respectively. It was decided to have a candidate to represent the farmers in these constituencies in the coming provincial elections.

Rome Police Adopts Bombs

Harmless Invention to Be Used Against Riotous Crowds

London.—The Rome police, according to a recent announcement, have decided to use bombs against riotous crowds. The authorities declare the bombs, which are a new invention, are harmless and will simply produce a blinding flash, enabling the police to handle the crowds more easily. The Italian press has been very complimentary to the invention, pointing out the likelihood of panics resulting from the explosions, and demanding more humane methods, such as firemen's hoses.

Archie Attested

San Francisco.—A verdict of acquittal was returned by a jury in the trial of Roscoe Arbuckle on a manslaughter charge growing out of the death of Miss Virginia Rapp, motion picture actress. The jury was out six minutes.

Defendant Was Deeply Affected
He received the verdict with a great deal of relief. There was no demonstration in the courtroom.

Lest We Forget

A Few Facts Concerning The Community Rest Room at Ponoka

Financed entirely by contributions U.F.A. and U.F.W.A. funds. Women's Institute, can assist subscriptions and voluntary offerings. Supervised by efficient women. Open every day except Sunday from 8 a.m. to 5 p.m., and on Saturday until 11 p.m.

Contains a splendid Free Library put in by the Women's Institute. Refreshments—Always warm, clean and bright. Reading material—papers and magazines. Splendid Kitchen facilities.

HOME OF ITS BENEFITS Mothers of young children find it very useful, shoppers from country find it very convenient, strangers find it an advantage. People waiting for trains find it a splendid waiting room. Women from country and town find a social meeting place. Travelers coming in from long-distance find it a great place to get warm and freshen up and taking it altogether the Rest Room has proved to be of the greatest benefit to the whole community. This article has been written to remind the people that it takes time and money to maintain—taxes, coal, lighting, supervising, cleaning and general upkeep. We appeal for this very worthy cause. Contributions may be left at the Canadian Bank of Commerce with the treasurer, Mrs. A.D. Crawford.

Pioneer Speculation

Attention has more than once been called in these columns to the fact that Mr. E.F. Hutchings, of Winnipeg, one of the outstanding business men of western Canada, owned a shack for many years ago on the bank of the river at Edmonton, near where the Macdonald hotel now stands. He had come here, a lad of nineteen, to wash gold. This he did for a year, doing some trapping at the same time. Then he decided to go back over the plains to Winnipeg, but before quitting his shack, carried his name with a knife on the cabin door. When the first surveyors came through, they saw the name and recognized his rights as a squatter. He was notified that he should register his claim, and in the course of a few years was able to sell it for \$27,000, with a cash payment of \$10,000.

This story was repeated by Mr. Hutchings in an interview which he gave to Calgary Herald the other day. "Do you know what I did with the \$10,000?" he asked. Well, I just put it back into Calgary and Edmonton property. Today I own considerable interests in both cities—one year of barlick and prairie and for the foresight I used in cutting my name on the cabin door, I received exactly \$46,000 in cash.

"People will tell you that such an opportunity will not come again. That's all rot. There are thousands of opportunities awaiting the man of courage and vision. Compared with what I had to contend with forty-seven years ago. The fellow who quits because of a few set-backs has no place in this western land."—Edmonton Journal

TRAPPER KILLED BY WOLVES

Winnipeg, April 17.—A special dispatch from Manitowagan, Man., says: "Born to shreds by timber wolves, the remains of the body of Ben Cochrane, a trapper, has been found north of Fisher River, on Lake Winnipeg."

"All that remained to tell of this grim northland tragedy were the trapper's bones, pieces of clothing, and a rifle with a broken stock, which were scattered over a considerable distance, but the bones of eleven huge timber wolves which were found near the spot where Cochrane had been attacked, bore testimony of the unfortunate man's heroic struggle for life against overwhining odds."

"Seven had been shot and four had been clubbed to death. Only when his rifle stock was smashed did the trapper, apparently, come to fight, and the pack tearing down upon him, tore his body to shreds."

Historic Knife

The Camavalet Museum recently received what is said to be the knife the guillotine used in Paris during the French Revolution and the subsequent Reign of Terror and which served to decapitate Louis XVI, Marie Antoinette, Robespierre, and thousands of others. It was a gift to the museum.

extreme western part of the State. These "institutes" are informal gatherings of farmers where reports are read from Agricultural Societies. Through Agent Hewitt carrying his exhibits to many country fairs in Kansas, the farmers have a very accu-

te knowledge of the conditions on the Canadian prairies. These people are eager to get facts. They are familiar with scientific soil culture. I tell one of these men that a given farm produced so many bushels to the acre is to invite such a multiplicity of questions that only a soil expert could answer. Jacob Mohr, Secretary of Agriculture for Kansas, says that for the first part of April his office has a considerable number of prospects for the Canadian Northwest who will go up to "spy out the land." Most of these agents would rather have a "prospect" make a trip over the line before he tries to decide on location or details of any kind. Mr. Mohr

in talking to me, remarked, "I have known of many men who went to Canada and prospered and then I have heard of some who came back dissatisfied." It is to avoid these disan-

A Foe to Asthma. Give Asthma half a chance and it gains ground rapidly. But give it repeated treatments of Dr. J. D. Kellogg's Asthma Remedy and it will fall back ever faster. There is no half way measure about this remedy. It goes right to work and drives asthma out, reaches the inmost breathing passages and leaves no place for the trouble to lurk. Have it by you

A "Play" on Words

Shopkeeper Proved Himself To Be Smart for Conceited Visitor

Struck by the notice "Iron Sinks in a shop window a conceited fellow went inside and said that he was perfectly aware of the fact that "Iron sank."

Alive to the occasion the shopkeeper retalled: "Yes, and this"

But the visitor had boited. After collecting ~~the thought~~ he returned and showing his head at the doorway shouted: "Yes, I know, and steep chases and marble busts."

Whistling Tree

The "Tsorf," or whistling tree of South Nubia, is so called from the flute-like sounds made by the wind in its branches. The sound is caused by the holes bored by an insect in the spines of the branches.

Once a mother has used Baby's C Tablets for her little ones she always keeps a supply on hand, for the first trial course succeeds her very first. It gives them in every case, children who The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach, thus driving out constipation and indigestion, and simple fevers and making them easier. Concerning them, M. Saluste Pelletier, St. Dumas, G. writes:—"I have used Baby's C Tablets for the past ten years and never without them in the home. I have always given the greatest satisfaction and I can gladly re-

Exports of Wheat from Canada
The total exports of wheat from Canada for the six months ended February 28, 1922, were 103,727 bushels, as against 95,268,818 bushels for the same period last year, the total amount the United Kingdom took 75,057,650 bushels, while 19,705 bushels went to foreign countries and 8,413,971 to the United States. The largest movement for any month during the above period was the month of December, when 23,000,000 bushels were shipped.

The ease with which corn warts can be removed by Hollow Corn Remover is its strongest recommendation. It seldom fails.

Claiming that music of all kinds is harmful to morality, the mayor of a certain town in France has ordered the suppression of all pianos and phonographs in his commune.

Many articles in daily use originally from the ground but realize that "mining" rosin has a thriving industry in the U. S. States for many years, despite the fact that rosin is the product of sap of certain species of evergreen trees.

Half a century ago rosin was so cheap that it did not pay to transport it in barrels and send it to market. The barrels were worth more

found for it, principally in the
and paper industries. For a
people forgot about the tons of
able rosin lying buried on the si-
the old turpentine distilleries, but
and by a group of enterprising in-
facturers began to work these
"mines." Of course these b-
supplies will eventually be used
and then people will have to
once more to reducing rosin from
gum. x

SUNDAY SCHOOL LESSON

LESSON FOR APRIL 23

UZZIAH'S PRIDE AND PUNISHMENT

1. Uziah Made King (vv. 1-5).

1. His Age (v. 1). He became king at the age of sixteen.

2. Length of His Reign (v. 3). He reigned fifty-two years. His mother's name was Jeroliah, which means "Jehovah is able," or "Made strong of Jehovah."

3. His Character (v. 4). He did that which was right in the sight of the Lord.

4. His Prosperity (v. 5). He def

lively sought God while Zechariah lived, and because he sought him God made him to prosper as long as he continued to seek him. He, like Joshua before him, turned aside when the influence of the man of God was removed.

1. He Uzi'ah's Achievement (vv. 6-15). — This is a port on the Red Sea which had been most to Judah. No doubt it was the influence of the father to get possession of this port, so the son makes his restoration his first duty. It was an important trading point and the commercial interests of the nation would

2. He Had Military Success (vv. 6-8). (1) He conquered the Philistines (v. 6). After subduing them he dismantled their fortified cities and

3. He fortified Jerusalem (vv. 9, 15). He took advantage of the peace which was now enjoyed because of the subjugation of his enemies to fortify Jerusalem. He placed in the towers great engines of war for hurling stones.

4. His Civic Improvements (v. 10). In the regions south and west of Jerusalem he built towers which served as threefold purview names.

5. His Army (vv. 11-15). It numbered 307,500. It was thorough,

equipped and drilled. God was with him, and his fame spread far and wide. The source of his strength was God.

III. Uzziab's Transgression (vv. 14-18).

The prosperity bestowed upon him by the Lord was too much for him—his heart was lifted up with pride. This is always so unless counteracted by divine grace. In his pride he presumptuously intruded into the priest's

office, his act was not because of forgetfulness, but of deliberate purpose. Aazariah and eighty other priests remonstrated with him, but this only made him angry. This act was a trespass against God.

IV. Uzziel's Punishment (vv. 19-21). While raging in his wrath and about to burn incense he was smitten with leprosy, a dreadful, incurable and unclean disease. This judgment came upon him as a consequence of his

overweening pride and vanity. He was thrust out of the sanctuary—excluded from God's house. Indeed, his own conscience smote him, and he hurriedly went out because he knew that the Lord had smitten him. He not only was excluded from the place of worship, but was dethroned. His son Jotham was made regent. His judgment was:

1. Sudden. The Lord smote him while he sat as priest, with reverence. Frequently God's judgments

are speedy. 2. Severe. The leprosy broke forth upon his forehead. The same judgment befell Miriam for speaking against Moses (Num. 12:10) and Gehazi for lying to Elisha (2 Kings 5:27). Great sins demand severe punishment. 3. Conspicuous. Azariah and all the priests looked up and beheld the leprosy (v. 20). The spot on Uzziah's forehead proclaims him as the object of God's wrath. How many today are bearing about

4. Humiliating. He was henceforth unclean—cut off from the congregation. This is what sin always does. 5. Fatal. It ended in death. "The wages of sin is death" (Rom. 6:23).

The Accommodating Varger
A new curate wanted to make good impression. It being his first sermon. He was determined not neglect his personal appearance.

Something to Keep in Mind

WARNING! Say "Bayer" when you buy Aspirin. Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances? Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Where, Indeed
A Canadian who wants to knock his country these days should first take a look around the world and decide where he could pitch his tent and be better off.

World Is Like Japanese Lantern
Buiges Under Pressure of Sun and Moon Says Prof. Evans
"Greenwich has apparently drifted as much as half a mile toward the equator in the last 18 years." That is a declaration by Prof. I. W. Thompson.

day in and day out she has to go through the same routine of work, sweeping, dusting, cooking, washing, etc. Is it any wonder that the heart becomes affected and she gets irritable and nervous, and she gets faint and dizzy spells, smothering and sinking, and she can't sleep at night.

To all women whose heart is weak and whose nerves are unstrung we would recommend

My heart was so bad at night I could not sleep, I would take smothering spells, and was so weak I could not do my housework. I tried two doctors, but got no results. A friend told me of Dr. Williams' Pink Pills. I used six boxes and am completely relieved. I think they are the best remedy for heart trouble there is."

Price, 60c a box at all dealers, or

Montreal, W. F. Cairill, M.P. for Cape Breton South and Richmond, deprecated the talk that Canada was a nation and insisted that such was the case even though we have all political and religious freedom. "We are not a nation," he said, "and the quicker we unbecome ourselves, the sooner we will become better Canadians. We

believed that Americans would develop greater statesmen. In conclusion, Mr. Carroll said:

"I am not talking with a view to independence or with a view to severing our connection with the mother country."
